Dear Mr. Abecassis:

It was great talking to you. I feel you have a great idea. In fact, Film Advisory Board has voted its "Award of Excellence" to your "revolutionary invention", and we hope to become involved with the "content on demand" architecture.

Obviously, you need a publicity campaign, as this is all so new. -- I forwarded your letter to a "money source". He is interested in working with me to help you.

I am awaiting your report. Good luck.

Please note how our **black & white stat** has been featured in ads and on videos sold all around the world.

Please call with any questions.

Congratulations to you and keep up the innovation!!
We will talk.

Cordially,

Elayne Blythe
